Assigned Numbers: [RFC 1700](#) is Replaced by an On-line Database

#### Status of this Memo

This memo provides information for the Internet community. It does not specify an Internet standard of any kind. Distribution of this memo is unlimited.

#### Copyright Notice

#### Abstract

This memo obsoletes [RFC 1700](#) (STD 2) "Assigned Numbers", which contained an October 1994 snapshot of assigned Internet protocol parameters.

#### Description

From November 1977 through October 1994, the Internet Assigned Numbers Authority (IANA) periodically published tables of the Internet protocol parameter assignments in RFCs entitled, "Assigned Numbers". The most current of these Assigned Numbers RFCs had Standard status and carried the designation: STD 2. At this time, the latest STD 2 is [RFC 1700](#).

Since 1994, this sequence of RFCs have been replaced by an online database accessible through a web page (currently, [www.iana.org](http://www.iana.org)). The purpose of the present RFC is to note this fact and to officially obsolete [RFC 1700](#), whose status changes to Historic. [RFC 1700](#) is obsolete, and its values are incomplete and in some cases may be wrong.

We expect this series to be revived in the future by the new IANA organization.

#### Security Considerations

This memo does not affect the technical security of the Internet.
